

Award

In May 2007 the Norwegian industry organization Elektroforum honored Ragasco with their annual "Automation Award".

Elektroforum is an organization for companies and entities working within the Automation industry and the organization represents more than 2000 companies and 70.000 employees.

The basis for the award was the complete revamping of the Ragasco production line and the result of this transformation. The key evaluation points for the award were Innovation, Increment of Productivity, Efficiency, Local Solution and Risk Willingness. The revamped production line represents state-of-the-art in automation of production as well as in the key processes; Blow Moulding, Filament Winding and Injection Moulding.

The award was received by Skjalg S. Stavheim (Production Manager at Ragasco) and Svein Erik Nordahl (Responsible for the Implementation of the new equipment and processes) on behalf of the Ragasco organization – please see the accompanying picture
