

Ragasco in The Unites States

NPGA - April 14-17, 2007 the National Propane Gas Association of the US celebrated its Southeastern Convention & International Expo in Atlanta Georgia. As in years past Ragasco again present as an exhibitor.

The tradeshow is undoubtedly the largest of its kind in the world and it gives the opportunities to meet with existing or potential business partners and update or expand our product lines. With over 300 exhibitors displaying virtually every type of equipment, applications and services in the LPG industry the approximately 2,500 visitors were presented with state-of-the-art products, demonstrations and seminars. The show is mainly attended by visitors from the US and Canada as well as a large number of professionals from the Caribbean, Central- and South America well as overseas representatives. Ragasco was represented by Bob Jones (Sales Manager, North America) and Morten Balle (Regional Export Manager, South America and the Caribbean). For Ragasco this was another chance to confirm the positive development in the US markets.

Ragasco Network- the company has been present in the US market since the beginning and is proud to have an outstanding group of distributors. Our composite cylinders are supported by a nationwide distributor network to date consisting of AmeriGas, Blossman, Crandall Equipment, Ray Murray, Rutherford, Trident Marine, Tri-State, Walter A. Wood, West Marine Service and West Marine. The Atlanta tradeshow was a pleasant occasion to meet our distributors and get feed-back on the development of the business.
