

# The *Clear* Choice for Camping

Clear View propane gas tanks offer campers a *clear* advantage over outdated metal tanks:

- **Travel without surprises.**  
See-through design provides a visible fuel level, so you won't run out unexpectedly, and only refill when you need to.
- **Stop struggling with heavy metal tanks.**  
Lightweight design is 50% lighter than steel.
- **Save money on propane.**  
Say "no" to expensive disposable cylinders! Camping with a Clear View refillable tank can save you over 50% on propane, and lightens your load.

- **Environmentally-friendly.**  
Reduce your footprint by refilling instead of throwing away metal cylinders. One Clear View 11 lb. tank = Ten 16.4 oz. disposable cylinders!
- **Refills are a breeze.**  
Easy to transport design includes ergonomic handle and tip-proof flat base.
- **Say goodbye to rust stains.**  
Corrosion-free, non-marring material keeps your vehicle and campsite clean.
- **Proven safety for your family.**  
Fire-tested Clear View cylinder will never burst.
- **Two sizes to fit your needs:**  
Choose from our 17 lb. tank, perfect for grilling, or easily portable 11 lb. tank.

**Clear View**  
LP Gas Tanks™

The best choice is clear.
